SUMMARY

- Fresh B.Tech graduate specializing in Software Engineering. Adept in robust programming, with a keen eye for detail and a knack for creative problem-solving. Known for collaborative teamwork and a genuine passion for innovation, coupled with a commitment to staying abreast of industry trends. Eagerly seeking engineer roles to apply my expertise in delivering top-notch software solutions.

PROJECTS

ARTUP PLATFORM | LINK

- Led the development of a groundbreaking platform for startups in my final year.
- Strategized and implemented seamless connectivity between startups and investors, streamlining the funding process.
- Utilized React.JS for a dynamic front-end and Firebase for robust back-end functionality.

WEATHER APP | LINK

- Spearheaded the creation of a dynamic website leveraging an API to fetch real-time weather data for searched locations.
- Innovatively incorporated location detection to provide instant weather updates for the user's current location.
- Crafted with precision using ReactJS to ensure a seamless and user-friendly experience.

TO DO APP | LINK

- Conceptualized and developed a feature-rich to-do app employing the full web stack.
- Utilized React.JS to create an intuitive front-end and implemented Express.JS with Mongoose for a robust server.
- Ensured seamless data storage and retrieval by integrating MongoDB into the architecture.

E-COMMERCE APP | LINK

- Pioneered the development of a foundational e-commerce platform, showcasing proficiency in ReactJS for a dynamic front-end.
- Implemented a user-friendly interface with strategically hard-coded data for efficient functionality testing.
- Demonstrated creativity and technical prowess in building a comprehensive yet user-friendly e-commerce prototype.

EDUCATION

JAIN (DEEMED-TO-BE UNIVERSITY)
BACHELOR OF TECHNOLOGY IN SOFTWARE ENGINEERING
July 2023 | Bangalore, KA
Aggregate PER : 78%

VIDHYA AASHRAM
SENIOR SECONDARY
June 2018 | Mysore, KA
Aggregate PER : 60%

PUSHPA EDUCATION INSTITUTION
HIGH SCHOOL
June 2016 | Mysore, KA
Aggregate PER : 74.5%

TECHNICAL SKILLS

LANGUAGES
Proficient with :
JavaScript • Java

Familiar with :
Python • C/C++ • NoSQL • SQL

TECHNOLOGY
ReactJS • NodeJS • ExpressJS • Git
MongoDB • Bootstrap • HTML • CSS
Linux • MacOS • VS Code • Atom

PROFESSIONAL SKILLS

Software Engineering • Testing
Design • Problem Solving • Agile
Leadership • Communication • Driven
Creative • Innovative

COURSEWORK

Cisco Software Engineering Program
Web Development Bootcamp
Accenture Developer Program
Object Oriented Programming using Java
